The state superintendent of public instruction is required under subsection 115.28(7) of Chapter 115 of the Wisconsin Statutes to establish rules and standards of attainment governing the preparation and licensing of those who will serve in the public elementary and secondary schools of Wisconsin. In fulfilling this responsibility, the state superintendent has adopted Wisconsin Administrative Code-Rules of the Department of Public Instruction which pertain to the licensing of public school personnel. The rules establish that Wisconsin will follow the program approval plan for the licensing of professional school personnel.

Under the program approval approach to teacher licensing, graduates of Wisconsin colleges and universities are granted a license by the Department of Public Instruction on the recommendation of the certifying officer of the institution at which they have successfully completed an approved program.

This brochure provides a complete listing of the approved undergraduate and graduate professional education programs including majors, minors, and concentrations offered at all of the public universities and independent colleges and universities in Wisconsin. Individuals interested in pursuing a career in the education professions may use this brochure to assist them in selecting a college or university with an approved program in their area of interest. The brochure also will be helpful to guidance counselors, admissions personnel, and program advisors who guide students in the selection of institutions of higher education and appropriate courses of study.

Additional information can be obtained by contacting the Department of Public Instruction's Division for Learning Support: Instructional Services at (608) 266-1879, or by contacting the certification offices at the institutions listed below that offer programs to prepare school personnel.
